

# BOTANICAL GARDEN TO GLASS LOUNGE BAR

From 5:00pm

## Our philosophy

Villa Lario are putting a unique spin on Farm-to-Table with their newly launched Garden-to-Glass concept. Immersed in two hectares of private gardens facing the lake, the property has reserved a space for the cultivation of aromatic plants. With a desire to create a low waste sustainable drinks menu, their mixologists have taken inspiration from these surrounding herb gardens to formulate exciting botanical cocktails infused with innovation and, of course, a good measure of Italianità.
